«In Moscow, a dazzling new star has truly risen. Behind this extensive project lie years of meticulous planning, renovations, and building a distinctive concept in the very heart of Moscow. I firmly believe that Stella di Mosca will not only elevate the luxury living offerings of the city but will from here on become a genuine focal point — a destination where you will choose to stay time and time again,» says Vadim Dronov.

Stella di Mosca offers an unparalleled opportunity to stay in the very heart of the big city while providing a tranquil sanctuary from its bustling ambiance. The cozy center of Moscow, 65 rooms and suites in which luxury is understated, but is evident in every intricate detail of the interior. The impeccable modern Italian design and interiors were created by the iconic Milanese duo **Antonio Citterio Patricia Viel (ACPV)**. The key objective was to restore the historical exterior facades along Bolshaya Nikitskaya Street and Sredny Kislovsky Lane, alongside the replication of a segment facing Bolshoy Kislovsky Lane, drawing upon archival documents and photographs. To seamlessly link the facades, a cohesive architectural element was devised — a cozy inner courtyard reminiscent of an Italian palazzo.

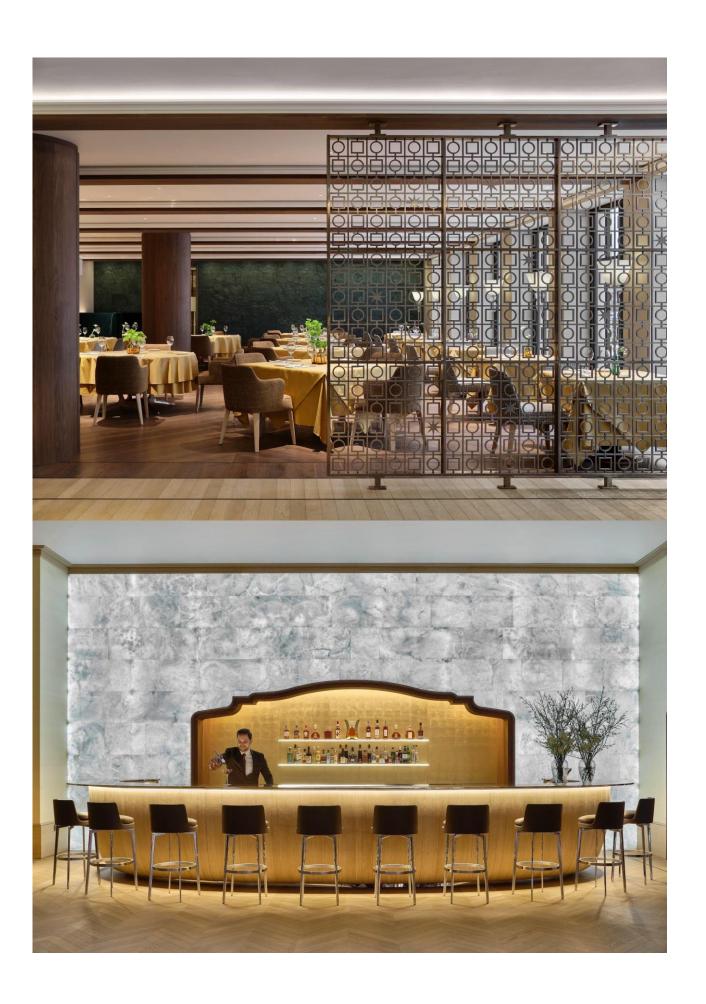

While maintaining a cohesive concept throughout, the project's distinctive feature lies in its diverse range of accommodation options, boasting a collection of 8 room categories that can be merged with adjoining rooms to cater families' needs.

On the fifth floor of Stella di Mosca, Presidential Suite, stands as the hotel's most expansive and opulent accommodation. This one of a kind 255-square-metre Suite accommodates up to five guests and has all that might be needed for the most luxurious stay — a spacious living room with bio-fireplace and cozy lounge chairs, bedroom with a stunning onyx-lined bathroom adjacent to it, as well as study, roomy wardrobe, own kitchenette and a private elevator leading straight from the lobby. The perimeter of the Suite boasts 5 terraces with panoramic views of the city. And leading up to the private Presidential Suite rooftop with 360 degrees view of the city is a marble staircase.

The spacious lobby lounge on the hotel's ground floor is the perfect setting for business meetings, socializing with friends, or relaxing with tea or light snacks. Floor-to-ceiling French windows flood it with soft light, opening up to the hotel's internal Italian-style courtyard. Executive Chef Manuel Pisu from Sardinia heads the Italian restaurant IL Ristorante that is expected to bring Stella di Mosca to the centre of the city's dining scene. Having honed his skills in the finest restaurants across Italy and the French Riviera, Manuel is now dedicated to reassembling the traditional ingredients and flavors of his childhood to create bold, innovative dishes for IL Ristorante's menu.

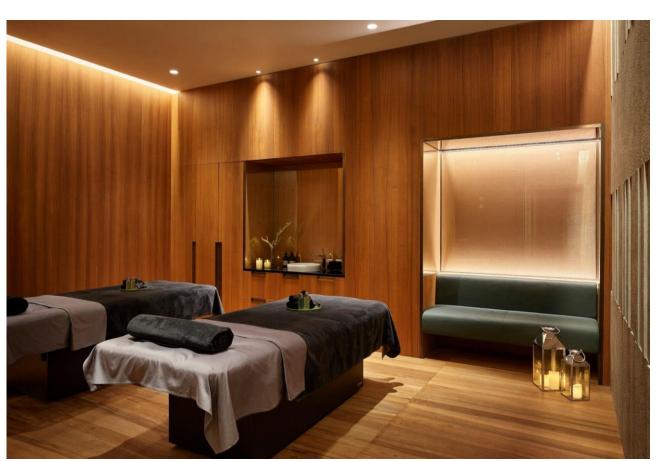

Next to the hotel entrance on the ground floor lies the chocolate boutique La Cioccolateria. All suppliers – small but proven cocoa plantations in Central America and Asia – are personally selected by Chief Chocolatier Wielfried Andre Hauwel to create unique sweets and desserts.

The exclusive spa area spanning 1400 square metres seamlessly blends a variety of relaxation and rejuvenation zones. It features a 25-metre pool adorned with green and gold mosaic, a Russian bath, a Finnish sauna, a Turkish hammam, and a Roman steam room. Guests have access to a modern fitness room, surrounded by panoramic glass panels, equipped with the latest TechnoGym exercise equipment, as well as to a dedicated yoga and pilates room.

The Spa offers 8 spacious treatment rooms adorned with teak, including a luxurious suite for couples with its private jacuzzi for guests and city residents alike.
